

Your Library Your Voice

In 2011, when Share an Idea first asked you what you wanted to see in Christchurch City Libraries' future, we heard words like vibrant, hi-tech, progressive, sparkling and fab. We took those ideas on board, and in 2017, we're going to see Christchurch's flagship New Central Library.

It may be three years away, but it already belongs to you.

We want a New Central Library that delights Christchurch for generations to come and it's important that you're involved in these first steps. Here's your chance. With the library's design about to begin, we'd love to hear your ideas and your dreams for your New Central Library.
