Dear Fred, It was good of you to remember my interest in the Library & to send me the literature relating to its early days. (Oddly enough, I was at the funeral in Wellington last Tuesday of F. E. Salvesen, my friendship with whom goes back to the Committee in the early '30's. His father before him was a keen supporter of the Library).

Libraries in general have for various reasons had a hard time of it in more recent years, and it says a lot for the enterprise and public-spiritedness of you good people on the Committee that Linwood still continues to keep going so efficiently. May your efforts continue to be successful.

Once more my thanks
Fred, & with kindest regards,

Yours etc,

Don Davis
