The parachutes

SWAGS

Relaying a Series of Swags.

* & Some of the Alpine resembling Mountain trees in every example he considers.*

* He has been in my possession for more than 2 years. Ans *

the eyelet-holes ~~& be~~ fastened on the top. ~~However~~ They had already started when the parachutes arrived with the strings tied to the eyelet-holes, with the result that they all tore out. Meanwhile the party with comparatively light swags were making their way up the river to the Shell flat where their tent & stores were to be dropped rejoicing that they had not to be continually ~~Hopping their~~ Swags ~~& Swags~~ & going back to bring others over along. When they got to the place instead of neatly packed parcels with a parachute attached they found the ~~whole~~ flat littered different things most of which had burst. However they were a pretty determined party, & by dint of scraping some crust-fully bits of the tents, collecting their butter with a spoon & washing & drying their rice & dried vegetables they managed to make a very successful visit though hampered & short commons. However the aeroplane ~~&~~ had come to stay & Capt. Moore has several times been able to drop supplies to parties held up by flooded rivers

I took ~~went out this~~ by one the Swedish N.Z. Shipping Co's boat by the Panama Canal which I had always wanted to see, taking a seven year old Morris 14 with me. As this Market Value was only £10, I had no duty to pay on it * I found it invaluable & did all my travelling for the Govt. Official & for Mess repairs. The cleaning of my car
