

Aug. 11. As it was so late, the guide had us turned up till 10.30
 we asked to be taken away about noon, however when we got
 down for breakfast he got the 7.30 bus, the Hotel
 waiter did not know & there was a mess. When we got to the
 bus it was full & he had to take a few extra seats, some
 Germans were going down the road with them. But the
 time he had found a guide it was getting on so as I was on
 to San Stefano & wanted to leave them & did as of 10.30.
 It is a steep path up & the guide was not better for
 for us. He called at Nalgio Nardi for food 12.15-1 & then
 went on. He both felt the heat very much & programed
 of numerous balls & got to the Presanella bus at 3.30.
 It was supposed to take 7 & there were 9 of us & two guides.

Aug 12. We got off at 2.5 & followed various grass covered mountains
 Presanella. I got with the hall for food ^{6-6.30} ~~6.30-7.15~~ we then went up the
 rocks. In the ridge there is one little place where we
 chopped down some kind of grass. We had to be careful
 grass down. We got to the top at 7.15. I had seen
 his position was also there. It was a glorious day & a
 wonderful view. There is a little hut on the top a
 bit of time ago. We were of course in that part of
 the top of the 1. 1915 had belonged to Austria & all along
 the frontier there had been heavy fighting & all the
 fields were covered with the remains of soldiers & all
 barbed wire & shell cases & "telegraph wires" we left
 at 8.30 & got down to the mountain at 8.25 descending
 of the sand & to the bus at 10.40. We had a meal at
 then set off down. When we got to the road we had a
 drink of tea from the Germans & got to Poggio at 3.40
 & paid off our guide Colliani Corrado & took a few extra
 seats up. When I got back I found some letters
 waiting for me & a lettering one that had been sent
 off by the R & broken the shoulder & left.

Aug 13. We had breakfast at 9 & then left. After lunch at the
 public bus was again full to both a few seats as to Poggio.
 It turned being in the afternoon.

Aug 14. I woke up at 4.15 & we got off at 5.30 on a fine morning road off
 by the Val di Genova. We got to Poggio when the bus had
 been rebuilt & was on a little other job 8.40 - 9.30. We was
 on a road that the bridge had been carried away. We found
 this very shady line built across the line & crossed it
 then & some of the same paper bridge. We got to Carco at
 11.20 - 11.25. The bridge at 12.15 - the Carco Poggio is
 being rebuilt. I had better not sleep & was on till
 1.5 when we had a glass of beer & had food till 2.5. It seemed
 very like rain but just held off. We got to the Madonna at
 3.30. The old bus has been destroyed & we were in a old
 bus with a little air some for weeks. We had some
 food - had soup with uncooked rice. It was very nice.

Aug. 15. I had a very nice night. We got off at 3.10 & was
 on till 4.40 when we decided to leave as we were still very
 tired. We went straight on down & had a bath 7.30 - 8.10 when
 we had a little sleep. We stopped near where the bus
 the Presanella bus for up & had food. I had some of the
 Church of San Stefano & saw the process - a dance of
 death & some of the churchmen & his fellows & the
 down to Poggio at 2.30. We got the bus off at 5.30

Aug 16. We packed & went to bed.

Aug 17. It is a week to the 6. Communion was fine first.
 Another priest was celebrating & the parish priest was
 unwilling a small by service from the Valley. After the
 gospel, the parish priest came in & read it in Italian &
 proceeded to preach while the other priest went on with the
 mass. He kept an eye on the celebrant while preaching
 and stopping to let the people standing at the end of the church
 for not coming up & sitting down. When the saying bell rang
 the service ended abruptly.
