

PANORAMIC PROFILE OF THE HILLS VISIBLE FROM  
THE SUMMIT ROAD, PORT HILLS, CHRISTCHURCH,  
AS SEEN FROM THE SEAT NEAR DYER'S PASS.

NOTE.—There will be practically no change in the apparent positions and forms of the distant hills from whatever position in the neighbourhood they may be viewed, but their positions relative, or with regard, to land marks about Christchurch will be correct only at or about the spot from which the sketches were made.
