

Outreach programmes

We have a team of experienced Librarians who are available to visit Community Groups and Preschools.

These visits may include:

- Storytelling
- Learning Parties
- Digital Storytelling
- Library and literacy information

Why come along?

Our programmes develop preliteracy skills through

- Experiencing books, rhymes and songs
- Making sounds, gestures and movements
- Interacting with other children and adults
- It's **free!**

How to have a good experience

Read the tips below to ensure everyone has a great time!

- Arrive a few minutes before the programme begins, to settle yourself and your child
- Turn off your mobile or other electronic device
- Participate with your child and share the stories, songs and rhymes together
- If your child becomes restless, tired or unhappy, you are welcome to take them out of the room and come back when they are settled
- Refrain from chatting with other parents during the session as this is distracting to both the presenter and other participants
- Take the opportunity to select some library materials afterwards

AND... have fun!
