

MARCH, 1916.

Wednesday 8

Was put on a fatigue party to-day. We were kept going all day. Had meat & bread to unload, and a lot of railway trucks to load with hay, oats, bran, and all kinds of stuff for one of the other camps. Did not finish in time for a dip. See aeroplanes over here every day. Received letter from Vi.

Thursday 9

On railhead fatigue again to-day. Loaded a lot of trucks. Got a gang of coolies after lunch & made them do the carrying. ~~Fixed~~ As my bivy was too small I pulled it down & made it bigger. Two of us sleep in it now.

Friday 10

Railhead fatigue again to-day. Loading up waggons for railway. Hard work and long hours.

Saturday 11

Sent down to canal to-day to check stuff as the coolies brought it off the barge & loaded it on waggons. Had also to keep the niggers moving. Got a big lot of stuff away.
