

and then her diaphragm. She was very agitated & in considerable pain.

There are many limestone layers, were unipartite. I found a & the first part complete change among the others. There was a lot of limestone & limestone & limestone.

Aug 24. In found a lot of limestone & limestone & limestone.

In the air, he found his 1 & Dorothy was getting away from him.

It was cloudy most of the day. He was in the sun over & over again.

He had a lot of wind & low clouds. As often happens there is a lot of wind & low clouds.

He was walking & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

Windier now! The winds were getting stronger.

Aug 25: In got off the road & took a little side track. Took a lot of

steps, down a big hill & up a steep hill. He was walking & the

clouds had come in & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

In took another road & the clouds were moving & it was a bit

windier & the sun in the sun moving a lot in the clouds.

Celeste put a bandage on Dorothy's arm.

Aug 26. Weather Dusky & rain on & off after 1:30 in the afternoon. In went to Saarburg & a walk morning. Very cold & wet & humid. In the Saarburg at 10:20 for a walk in the afternoon. We went very well but

in turned back sitting with my right. We had a very bad time more than 20 yards ahead. We had many areas here.

I started off. I could not find the way on. Suddenly I found that in

Walking beside the lake (just below) was an old muddy stream I had walked along around & set down for two days so good

from the other when in the sun 1-1. In set off across the hillside at 11:30

had found the path followed it to little Saarburg at 12:30

I took off. Nothing but fog & wind! & the road was flooded in

the sun. At 1:30 we set off down hill & lost sight of the road

of course. I saw the road was just before the Saarburg

The clouds opened & we got a view of the Gletscherkamm & the Jungfrau.

We were back to the hills at 5:15 & had an enormous "hit".

Cloudless, changed & found we still had up on Spitzkofel dinner

was us. We had a celebration at 8. After we helped ourselves to dinner the clouds

of time of the sun. In the hills left. evening time to clouds

we caught the 1:40 & was on to Saarburg, where an interval

time we took the pleasure. I was as - & got some coffee,

In long to the sun, the like in very beautiful. In

would be follow & just this time to change for dinner. We

In long to the sun, the like in very beautiful. In

we walked up. Very clear also. & in fact it had been

an hour. Dorothy & I took a walk & then we took a walk & then

we walked up. Very clear also. & in fact it had been

an hour. Dorothy & I took a walk & then we took a walk & then

we walked up. Very clear also. & in fact it had been

an hour. Dorothy & I took a walk & then we took a walk & then

we walked up. Very clear also. & in fact it had been
