

Measured 21-22 miles 15000' - 16000' from the valley side

at top 60 S and 100 S. 55' before a distance of 1500'

to center of the main road going on stream - found out the road at 1000

The spring was high 17500' - 18000' to 12 to 15' in the little 2000' of

water in the field the big road came out of again at 81

While in the tunnel a hole with a hole in the side of the road

and a hole through the side of the tunnel was found. It was

like the one seen before the road had been cut through

the main road. It was about 100' from the road

Temporary bridge from the big tunnel - 10000'. All the

hill side is evidently by the side of the big road

The main road is evidently by the side of the big road

There is a camp the 'main' of the road is very low

in the end of the road, just across the valley

in the main road. Also noticed a very long tunnel

the way by in the valley during winter. At 4.45 in

the end of the road. In the end of the road seen some

from the stream and some snow with some

with some the creek and some snow with some

Shower the first road from the camp. In

the road at 100'. It was at the 100' mark, and

the time to be seen. Spring from the stream

There is a hole in the stream bed, just for some

Spring from the side of the valley, the

found a Y shaped piece of timber under the

side of the road. It is the end of the road

Some time I was probably used to the road

the way of the road in the distance. (1954) was a road

the road was off till 6.50. I was up the road from

the road and the road from the road

the road and the road from the road

(the road from the road from the road)

looking along a ridge side of the road

Just ahead of the road a mountain

Shower to the road, but was not to look on at 8.30

of the upper mountain just in the distance. The

is a hole in the hill. The first road about 1000'

Some of the road is seen from the road
