MOUNT IONIA CLIMBED

AIR TRANSPORT FOR
MOUNTAINEERS

SUCCESS OF CANON NEWTON

PARIS

Highly pleased with the success of the arrangements made for the transport of the party, equipment, and stores by aeroplane, Canon H. E. Newton, one of New Zealand's most active climbers before the war, but now resident in England, returned to Christchurch during the week-end from a successful trip to the headwaters of the Arawata river, South Westland. With Misses M. T. Roberts and M. B. Scott, of Dunedin, Mr. Alec Gifford, and Cedric Jack Cox, Canon Newton made the first recorded ascent of Mount Ionia.

Canon Newton has been delighted to get back into his old bouldering grounds in the New Zealand mountains, but he told a reporter of "The Press" last evening that one of the things that have given him most pleasure was to find how interest in mountaineering has increased among New Zealanders in the last few years. He is generous in his praise of the thorough exploration work that has been carried out by parties from the New Zealand mountaineering clubs in a comparatively short space of time.

Natural Landing Ground
