"THE CANTERBURY TIMES,"

A NEWSPAPER OF THE LARGEST SIZE.

The object of the Proprietors in publishing the *Canterbury Times* is to provide the public at large, and especially those who desire to obtain the complete news of each week within moderate cost and compass, with a journal peculiarly suitable for home reading, country circulation, and transmission abroad.

While every item of important news which may occur during the week will find a place in the *Canterbury Times*, particular attention will be paid to those departments of information, instruction, and amusement, which are not properly within the scope of a daily paper.

The circulation already obtained by this journal renders it the
BEST MEDIUM FOR ADVERTISING
for those who particularly wish to address the Agricultural and Pastoral Public.
