1. Form of Telegrams.—All telegrams should be written on the printed forms supplied at the stations; but telegrams written on plain paper will be received under the following conditions:—They must be legibly written in ink, contain a proper address, and bear a genuine signature in the usual handwriting of the sender. All words must be written in full; and it is recommended to write numbers in words.

- 2. Transmission of Telegrams.—Ordinary telegrams will be transmitted in the order in which they are received by the officers of the department, but if several are presented for transmission about the same time, the officer is not bound to transmit more than two hundred words of any one of such telegrams before the other telegrams have been transmitted. Official telegrams take precedence of others.
- 3. TELEGRAMS IN CYPHER.—Telegrams may be transmitted in cypher, which will be counted according to the following scale:—Separate cyphers count as one word; groups of five cyphers, or fractional parts of five cyphers, count as one word. Groups exceeding five cyphers are counted at the rate of five cyphers to the word. Any fractional portion remaining to be counted as a word. Note.—Where cyphers are used, the sender is recommended to pay for the repetition of the telegram, to insure accuracy in the transmission.
- 4. Cancelling Telegrams.—If there should be great delay in the transmission of a telegram so as to destroy its value, notice will be sent to the sender of such telegram, should his address be known, and he may apply in writing to have the telegram cancelled and the payment for it returned.
