

SPECIAL EDUCATION

Training and Treatment of Backward, Delicate, Nervous and Mentally Retarded Children

ELMSDALE SPECIAL SCHOOL, TIMARU
(Established 1917)

ELMSDALE is a Boarding School for a limited number of backward and delicate children requiring more individual care and teaching than can be obtained in the ordinary school.

Extensive Grounds of nearly twenty acres afford ideal opportunities for the physical and mental development of the pupils.

The object aimed at is to combine with the refining influences and individual care of home life the necessary discipline and simple but ordered life of a school; to provide such training and instruction as is suited to the intellectual and physical conditions of the pupil, together with such more purely medical treatment as may be found necessary.

In addition to such subjects as each child is capable of, Kindergarten, Montessori Methods, Gardening, Fruit Culture, Poultry Raising and Farming are taught.

For Prospectus and Particulars, Terms, &c., apply to

GEORGE BENSTEAD, Rector,
Late Principal Otikaika Special School.
