

5.
METHOD OF
DISSEMBARKA-
tion.

Vide Appendices I and IV attached.

6.
ORDER OF
DRESS.

Troops will land with Packs, one day's rations and 2 Iron Rations.

Caps will be worn.

7.
MACHINE
GUNS.

Machine Guns and belt boxes ~~are to~~ ^{will} be carried by hand. The Reserve personnel of Machine Gun Detachments, undergoing instruction, will alone be employed in assisting Gun Detachments.

8.
1st LINE
TRANSPORT.

As tool carts will not accompany Echelon "A", General Service picks and shovels will be carried ashore as under:- Full complement of each Battalion will be taken. These will be issued to Platoons before disembarkation, tied in bundles before being placed in the boats, and distributed on the beach immediately unit has landed.

Great care must be taken to ensure that boats are not damaged by points of pickheads or by sharp edges of shovels.

9.
AMMUNITION.

Infantry will carry 200 rounds on person and 3,500 rounds per Machine Gun in belt boxes; other arms as in War Establishments.

A Reserve of Ammunition is being formed close to the beach, position of which will be notified when selected.

10.
HOT MEAL.

A hot meal will be issued for all Troops as late as possible before leaving their Transports.

11.
CARE OF
RATIONS.

All Troops are to be warned to be very careful of their rations, as those taken on shore may have to last more than three days.

12.
WATER.

(a) All Troops must exercise the greatest restraint in the consumption of water. Before leaving Transports, each man drink as much as he can hold. (~~The water bottles should be~~ ^{will} tied to the back of the pack and not used except by an Order.)
