FOR
GENUINE HAND-MADE PANAMA HATS.

Having just landed with a consignment of Genuine Panama Hats which I purchased from the Natives of South America, I am prepared to sell them at prices now being charged for the Imitation. I have taken a Stall in the Exhibition (next to the **Fernery**); and also a Shop in **Manchester St. (No. 74a)** in the **Leviathan Buildings**, and these Hats can be purchased at both places. Every Hat guaranteed Hand Made. Those requiring the Genuine Article should call at once and inspect.

Increase your Earning Ability.

By understanding and applying the principles of Hypnotism (Mental Influence) you can become a **SCIENTIFIC SALESMAN**. You can strengthen your Will Power, and attract to yourself the persons and things you most desire.

Personal Instruction in the "Commercial Aspect" of Hypnotism, as used by successful Merchants, Salesmen, etc., given in Class and Private.

Eucalyptus

IT IS THE BASIS OF THE GREAT SANOSIN TREATMENT FOR CONSUMPTION AND HAS BEEN SUCCESSFULLY USED BY THE MEDICAL PROFESSION FOR CANCER, ERYSIPELAS, RHEUMATISM, FEVERS, &c.

Patterson, Slack & Co.'s

Eucalyptus [Gum Leaf on Label] Stands Supreme for Purity and Highest Medicinal Value.

It has been selected by the N.S.W. Government for Special Exhibit In the N.S.W. Court in this Exhibition.

CAUTION.—Buy None But the BEST.

There are scores of species of Eucalyptus (*Blue Gums, Red Gums, Apple Gums, &c.*) but many are of little value medicinally.

We are the sole N.Z. Agents for the Australian Oil Company which holds the highest reputation throughout Europe and Australia as distillers of high-class oils only.

The various Oils (or Extracts) distilled by this Company are from species selected only after considerable scientific research. Each species is kept separate and is sold guaranteed true to name.

After extended testing with numerous Oils on the market this Company's Oils are specially commended by Dr. Cuthbert Hall, M.B., Ch.B. of New South Wales, one of the few authorities on Eucalyptus.

HOME-MADE GASLIGHT FOR COUNTRY HOUSES.

Takes about 20 Minutes labour per week, and after that you only have to turn a tap and apply a match when you want **LIGHT.**

Yes, a brilliant, beautiful white light, too. A light that spreads all round the room like Sunlight. A light that gives sparkle to every polished article that it falls on, gleam and glisten to white table linen, and a genial, cheery glow to everything it illuminates.

Wouldn't you like to get rid of the everlasting smell of kerosene in your home?

Wouldn't you like to know that never again would you have filthy Kerosene Lamps to clean and fill, wicks to trim, chimneys to clean, and the permanent dread of fire.

Wouldn't you like to know that in every room you had a neat, pretty fixture, firmly attached to ceiling or wall, where it couldn't be tipped over by the children, where it was never in the way, and was always ready to touch a match to when you wanted a light?

Wouldn't you glory in the absence of soot, smell or danger?

Wouldn't you like your visitors to find in your home that smart "city style" which Gas Lighting gives, with that soft radiance shining down from the ceilings, where it does not get in your eyes like the glaring light of smelly kerosene table lamps?

A GOOD ACETYLENE PLANT

Will be good for the use of a lifetime, and the light is a luxury and a comfort, both time-saving and eye-sight-saving, and after the initial cost at a cheaper rate per candle power than kerosene.

Now, just drop us a line, stating how many rooms you have got, and we will tell you a about how much it would cost to light them properly with this beautiful white light, which is similar to Sunlight.

SCOTCH Working Model Colliery

At the Entrance to Wonderland.

This Wonderful Model has been brought direct from Scotland to this Exhibition at great expense.

It stands on 400 square feet of ground. All the parts are working as at a real coal-mine. You will see the pumping engine raising the water from the mine, the winding engine raising the coal up the shafts. You will also see the miners going down the shafts to their work, and see them working when they get there. You will see little electric motors taking the little trucks of coal from where the miners are working to the endless rope haulage, where you will see them passing along to the bottom of the shaft. All this must be seen to be believed.

The whole of this famous model was constructed by two Scotch miners.

Pronounced by all the people who have seen it here to be the cleverest and smartest thing in the Exhibition.
